SUMMARY

As an enthusiastic Computer Science student at the University of Jember, I am deeply fascinated by the realms of artificial intelligence (AI) and software development. My motivation stems from an insatiable curiosity to unravel the underlying intricacies of diverse technological domains. Eager to immerse myself in real-world applications, I seek an internship opportunity to harness my burgeoning technical skills within a dynamic professional setting. Looking ahead, my overarching aspiration is to play a pivotal role in propelling Indonesia forward through innovative contributions in software development, thus contributing to the nation's ongoing progress and advancement.
